

Dear 8th Grade Social Studies Teacher:

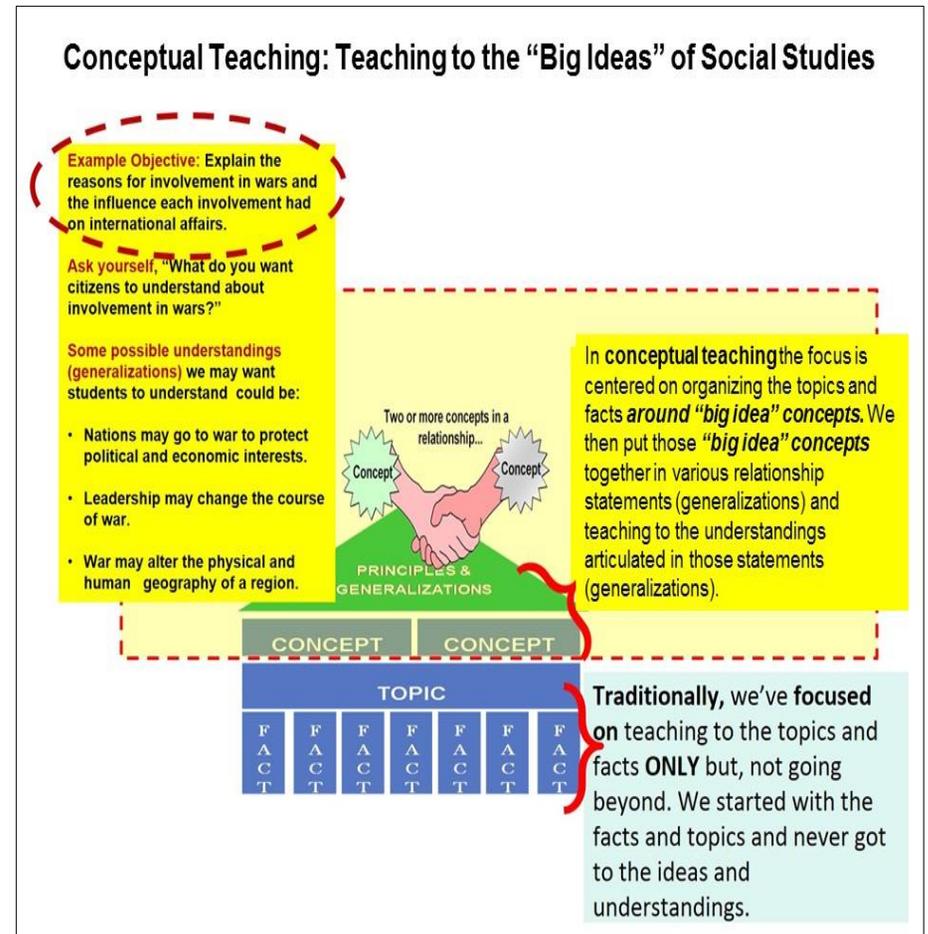

Generally, students tend to think that Social Studies is a waste of their time and has nothing to do with their current reality nor future needs. *However*, the primary purpose of NC's social studies curriculum is to help all students make informed and reasoned decisions for the public good as citizens of a culturally diverse, democratic society in an interdependent world.

The NC Social Studies Essential Standards are *conceptually* written (big ideas verses topics & facts). The goal of **conceptually written standards** is to help students recognize patterns and make connections in their learning that *transfer beyond* a single discipline, topic, grade, or isolated fact. Therefore, it is important to *understand how* conceptual knowledge is structured.

Need to Know:

- Social Studies is taught daily (60 to 90 minutes).
- Lessons should be developed *beyond* definitions, topic and facts.
- Units/Lessons should engage students' intellect and interest in the conceptual understandings: *1. to see that social studies is about real people's lives and their relationship to each other and to nature; 2. various roles they will assume in making society more equal and more just; 3. and expressing of their ideas powerfully to make a difference in society locally, nationally and internationally.*
- Study the explanation and example of the graphic (Figure 1) to begin developing your understanding of concept-based teaching.
- Your mission is to ensure that Halifax County Schools' students graduate high school with the knowledge, skills, understanding and dispositions gained from the social sciences that results in college and career ready students who are globally informed and active citizens.
- Research says that you (the teacher) have the greatest *impact* on student achievement. Best regards for a successful school year!
