31

Decking installation at corridor (Area C)

Jan.  
02

Decking installation (Area C Penthouse)

Erecting structural steel (Area B)

03

Decking installation (Area D)

07

Steel erection (Area B)

08

Scaffolding for CMU wall install (Area D)

CMU wall completion (Area D)

## STEEL INSTALLATION

Bar joist installation at Area C (Classrooms)

The structural framework is progressing smoothly at the Eastman site! Steel plays a crucial role in providing **strength** and **stability** to the building, and comes in many forms. **Beams** and **columns** deliver essential load-bearing support, while **joists** and **decking** (corrugated steel sheets used for floors and roofs) are integrated to add strength and stability.

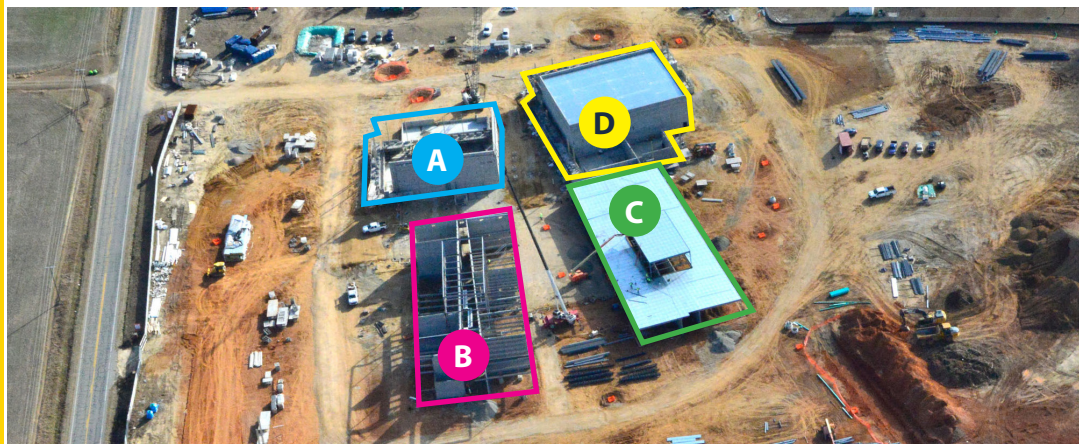

Bar joists set in Area C (Classrooms)

Structural steel erection at East elevation

## BUILDING UPDATES

January 3, 2025
