Tip Of The Month

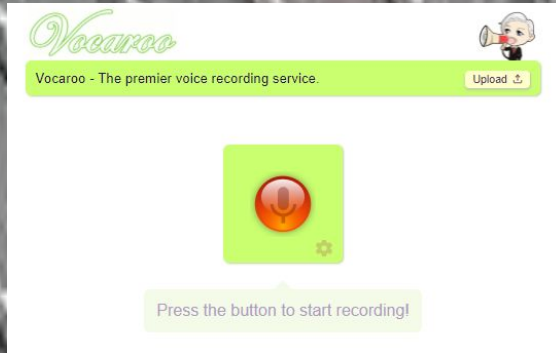

Did you know that you can create a new Google doc, slide, sheet, or form by simply typing an address in as the URL? That's right, you don't have to access your Drive, go to the "Waffle", or even use an extension. Here's how; in the address bar simply specify the type of document you wish to create and end it with ".new". For example:

You want to create.....

- A Google Doc - type "doc.new"
- A Google Sheet - type "sheet.new"
- A Google Slide - type "slide.new"
- A Google Form - type "form.new"
- A Google Drawing - type "drawing.new"

Then, just remember to name your new document and put it in the Google Drive folder you want it to live in. Happy creating!

Teacher's Toolbox

Vocaroo is the simplest way to record audio in a web browser. It can be used with Chromebooks, laptops, desktops, iPads, etc. Using Vocaroo is as simple as clicking on the red “record” button and talking. No fancy learning curve, no crazy settings. The only thing you have to make sure of is that you have given the web page permission to use your microphone. What’s even better is that once you have completed your recording you are given several choices of how to save it and use it! Best of all, VOCAROO IS FREE TO USE!

Some ways teachers are using Vocaroo:

- To record comments or instructions for assignments.**
- To record examples for their students.**
- To have students record their thoughts or answers instead of writing everything down!**
- For teacher or student created podcasts!**
- and many, many other uses.**

Try it today and see how easy it is!
